

MAGNETS, KEY TAGS, & ZIPPER PULLS

Custom molding allows cross platform product manufacturing. A great example of this is our Magnets, Key Tags and Zipper Pulls.

Magnets are molded with sturdy non-flexible plastic to which a powerful strip of magnet is applied to the back. Used in souvenir shops or school book stores, also great for clubs and other organizations that want their brand to be seen.

Key Tags and Zipper Pulls are an affordable way to enhance brand circulation. Great give away at special events such as class reunions, commemorative events and fundraisers.

FEATURES:

- Designed to reproduce your brand, mascot or logo.
- Custom made to order for complete creative control.
- All graphics raised 1/16" from background.
